

# Assignment 2

# Assignment 2

---

You will be implementing a program for a vending machine, namely *ppd* (**Penelope's Pastry Delights**).

Group and individual components:

- M1 - Test cases: Group
- M2 - Base Implementation: Group (Demonstration in week 10)
- M3 - Enhancements: Individual
- M4 – Final report: both Group and Individual

Assignment 2 Preparation

- Register your group **this week (has to be done before end of week 8)**
- Group size 4
- Groups formed in Lab classes

# Assignment 2

---

## Due dates

- **M1 & M2: Friday Week 10 (Group work)**
- **M3 & M4: Friday Week 12 (Group and individual works)**
- Separate upload pages on canvas, Carefully upload to the correct link
- Group components and (combined) report, one person from the group should upload.
- *Individual enhancement*, each student has to upload.

## Group update

- Each week (till end of week 10), you are supposed to give an update on your groups progress to the tutor in the lab.
- Attending these sessions is very important.

# Assignment 2

---

## Getting help

- Lab class
- Discussion board
- Weekly consultation sessions: Xiaodong, Paul, and Dale.

## **No time extensions** will be given for *group component*:

- If special consideration is granted, generally it would be awarded only on an individual basis – only for the student affected.
